

## M.Arch – Directed Electives

The M.Arch program requires 6-credits of Directed Electives. These courses are intended to assist with informing Thesis development. Students should consider their own Thesis topic interests and select courses that will be of value.

The below list is approved to fulfill the M.Arch Directed Electives. Anything not on this list requires approval from Dean of the School of Architecture.

- Any course with the DHH prefix
- Any additional HTC courses not already required nor taken as the HTC Electives
- Any additional HSP courses not taken as the HTC Electives
- Courses with REA prefix excluding: 0001, 0002, 0003
- Any course with the SUS prefix
- Any additional TSM courses not already required. These could be transferred or those offered through the Schools of Interior or Landscape Architecture
- Specific courses with the URB prefix: 3010, 3011, 3012, 3014
- Courses with the ART, SSH or MNS prefix require approval from School Dean
  - **NOT Approved:** ART2003
- Specific courses with DME prefix – remember to think about Thesis application:
  - DME2028 Digital Fabrication and Model Making | 1.5 credits
  - DME2032 Autodesk Revit: 2 and 3D Design Representation | 3 credits
  - DME2034 Rhino I: 3D Design | 1.5 credits
  - DME2055 Algorithmic Design: Grasshopper | 1.5 credits
  - DME2072 Advanced Revit and Computational Workflows | 3 credits
  - DME2100 Representation | Workshop | 3 credits
  - DME3302 Advanced Urban Representation | 3 credits
  - **NOT approved:**

DME2001	DME2016
DME2015	DME2042
DME2017	DME2045
DME2044	DME3301
DME2073	

*This is not an exhaustive list.*
