- Washington University, 1976 - Master of Architecture
- Fordham University, 1971 - Bachelor of Arts, English
- Boston Architectural Center 1973 - 1975
- Universite de Paris, La Sorbonne 1969 – 1970

Teaching Experience (2004 – Present)

Boston Architectural College: Dean and Faculty, School of Design Studies

The BAC design studies program offers a pre-professional baccalaureate degree with concentrations in architectural technology, sustainable design, historic preservation, design history and theory, and design computing, and a post-professional master degree with concentrations in sustainable design, historic preservation, and design for human health. As the head of the design studies programs, Mr. Hunsicker is responsible for establishing and administering the curriculum, recruiting and advising students, and contributing to and participating in the administration of the institution.

Professional Experience

1985 - Present: Hunsicker Corporation President

The Hunsicker Corporation has provided professional construction management and project development services to building project owners. These services extended from initial site selection and facilities programming to construction contract close-out. Projects included both renovation and new construction for multi-family housing, office, school, light industrial and institutional facilities ranging in cost from \$100,000 to \$125,000,000. The Hunsicker Corporation continues to provide analysis and evaluation of construction disputes for attorneys, owners, contractors, and design professionals.

1992 - 1997: Shuman Building Corporation Project Manager

Shuman Building Corporation was a general contractor specializing in technical facilities, office renovations, and commercial and industrial construction. Mr. Hunsicker was responsible for overseeing project management and quality control, contract administration, and project development.
