Dear students,

From the two town hall opportunities over the last two weeks and from speaking with some of you in your virtual classrooms, I have been gaining a deeper understanding of how you’re feeling and doing. By all accounts, despite the stress and long hours in front of the computer, you have been making remarkable progress in your courses. Some of you are taking the coursework from different time zones around the world. Kudos to you for exemplifying the grit that BAC students are known for. You are the best!

Let me express my deepest thanks to you and to our dedicated faculty and staff! We are working around the clock to ensure you’re well supported. Like virtually every college and university in the country, we went fully online. However, you still have access to all the support services, including financial aid, advising, physical and mental health services, library, career services, and more. Shortly, we will send you a survey for us to find your current and future needs so we could better serve you. Please be sure to look for the survey and respond to it immediately.

Stay well!

Dr. Mahesh Daas, President
