

Tiffany LeBlanc, Cert'07
Principal | LeBlanc Design

Tiffany LeBlanc was nurtured by an artistic family and a lifetime of travel, visiting destinations such as Myanmar, Japan, Italy, France, Singapore, and Thailand. While her travels are a driving force for her creative energy, she also finds inspiration from visiting local places like The Gardner Museum or staying in a lovely boutique hotel.

Before beginning her design career, Tiffany worked in luxury retail in New York and Boston. She later transitioned into managing a small independent research firm in the financial sector. After ten years in finance, Tiffany and her husband started renovating their first home, sparking a realization that this was her true passion. From there, she went on to Boston Architectural College where she received her professional training, and in 2005, she founded LeBlanc Design.

At LeBlanc Design, Tiffany and her talented team handle all aspects of the interior design process, from preliminary schematics to final installation.

Tiffany is also an active member of the design community, serving on the Board of Governors for Gore Place and as a member of the Design Leadership Network. Outside of her pursuit of excellence in design, Tiffany enjoys traveling, cooking, and spending time with her friends and family.
